

Session 4 Revision and New Challenges for iPads

Select at least 3 of these tasks and explore what you can do.

Task 1

Getting rid of typing mistakes

Have a go at this easy way to get rid of typing errors

- Open an email and type a test email into the body of the message. Make it a paragraph
- Then just shake your iPad and an **Undo Typing** alert box will pop up.
- Tap **Undo** to delete the text.
- If you change your mind again, shake your iPad and select **Redo Typing** to get the text back.

Task 2.

Explore some of these typing tricks

- Open an email or a document in Pages. No need to type in an address this is just a practice
- **Using upper case**
Turn on your Caps Lock and TYPE YOUR FIRST SENTENCE IN **UPPER CASE**. If you don't know how to turn on your Caps Lock so you don't have to continually use the shift key. Here is what you do.
- Make sure the Caps Lock function is turned on in Settings - General - Keyboard, and
- then double-tap either shift button whenever you are typing to turn on Caps Lock.
- **Using Hidden Punctuation** .Apostrophes and speech marks can be fiddly on the iPad's virtual keyboard because they are tucked away on a second keyboard, however there is also a short cut.
- **In your test email** use the following short cuts to type in this sentence " I am very sorry that my sister's dog has eaten your shoes" she said!!
Just tap and hold the exclamation mark to get an apostrophe and tap and hold the question mark for speech marks.

Task 3

Exploring Google Earth

- If you don't have the Google Earth App. Go to the APP Store and download the app. Its free
- Open the App and locate your childhood home
